- For the year ending 31 August 2014 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.
- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.
- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 29 May 2015

And signed on their behalf by:

T Handley, Director

Notes to the Abbreviated Accounts for the period ended 31 August 2014**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover represents gross rents and service charges and amounts receivable for goods and services net of VAT and trade discounts.

Tangible assets depreciation policy

Tangible fixed assets other than freehold land and buildings are stated at cost or valuation less

depreciation. Depreciation is provided at rates calculated to write off the cost or valuation less estimated

residual value of each asset over its expected useful life, as follows:

Land and buildings Freehold no depreciaton

Plant and machinery 20% straight line

Computer equipment 33% straight line

Freehold land and buildings are stated at open market value.

Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities

(effective April 2008), it is a departure from the general requirement of the Companies Act 2006 for all

tangible assets to be depreciated. In the opinion of the directors compliance with the standard is

necessary for the financial statements to give a true and fair view.

Depreciation or amortisation is only

one of many factors reflected in the annual valuation and the amount of this which might otherwise have

been charged cannot be separately identified or quantified.

Other accounting policies**Deferred taxation**

Deferred tax arises as a result of including items of income and expenditure in taxation computations in

periods different from those in which they are included in the company's accounts. Deferred tax is

provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date,

at the average rates that are expected to apply when the timing differences reverse, based on current tax

rates and laws.

Deferred tax is not provided on timing differences from the revaluation of fixed assets where there is no

commitment to sell the asset.
