The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 31 March 2018.

The members have not required the company to obtain an audit of its financial statements for the year ended 31 March 2018 in accordance with Section 476 of the Companies Act 2006.

The director acknowledges his responsibilities for:

ensuring that the company keeps accounting records which comply with Sections 386 and

(a) 387 of the Companies

Act 2006 and

preparing financial statements which give a true and fair view of the state of affairs of the company as at the end

of each financial year and of its profit or loss for each financial year in accordance with the

(b) requirements of

Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to

financial statements, so far as applicable to the company.

Balance Sheet - continued 31 March 2018

The financial statements have been prepared and delivered in accordance with the provisions of Part 15 of the Companies $Act\ 2006$ relating to small companies.

In accordance with Section 444 of the Companies Act 2006, the Profit and Loss Account has not been delivered.

The financial statements were approved by the director on 20 December 2018 and were signed by:

M G Davis - Director

Notes to the Financial Statements for the year ended 31 March 2018

1. Statutory information

Alpha Centre Limited is a private company, limited by shares , registered in England and Wales. The

company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. **Accounting policies**

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

Key source of estimation, uncertainty and judgement

The preparation of financial statements in conformity with generally accepted accounting practice requires

management to make estimates and judgement that affect the reported amounts of assets and liabilities as well

as the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of

revenues and expenses during the reporting period.

There is estimation uncertainty in calculating depreciation. A full line by line review of fixed assets is carried

out by management regularly. Whilst every attempt is made to ensure that the depreciation policy is as accurate

as possible, there remains a risk that the policy does not match the useful life of the assets.

There is estimation uncertainty in calculating deferred tax. A full line by line review of deferred tax is carried

out by management regularly. Whilst every attempt is made to ensure that the deferred tax is accurate as $\frac{1}{2}$

possible, there remains a risk that the provisions do not match the actual tax liability when asset is disposed off.

There is estimation uncertainty in calculating bad debt provisions. A full line by line review of trade debtors is

carried out at the end of each month. Whilst every attempt is made to ensure that the bad debt provisions are as

accurate as possible, there remains a risk that the provisions do not match the level of debts which ultimately prove to be uncollectable.

Turnover

Turnover represents amounts receivable for rents and services. The company is not VAT registered.

Goodwill

Acquired goodwill is written off in equal instalments over its estimated useful economic life.

Intangible assets

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost

less any accumulated amortisation and any accumulated impairment losses.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 25% on reducing balance

Fixtures and fittings
Motor vehicles

- 15% on reducing balance
- 25% on reducing balance

Notes to the Financial Statements - continued for the year ended 31 March 2018

2. Accounting policies - continued

Investment property

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes

in fair value is recognised in profit or loss.

Financial instruments

Financial assets and financial liabilities are recognised in the balance sheet when the company becomes a party

to the contractual provisions of the instrument.

Trade and other debtors and creditors are classified as basic financial instruments and measured at initial

recognition at transaction price. Debtors and creditors are subsequently measured at amortised cost using the

effective interest rate method. A provision is established when there is objective evidence that the company will

not be able to collect all amounts due.

Cash and cash equivalents are classified as basic financial instruments and comprise cash in hand and at bank

and bank overdrafts which are an integral part of the company's cash management.

Financial liabilities and equity instruments issued by the company are classified in accordance with the

substance of the contractual arrangements entered into and the definitions of a financial liability and an equity

instrument. An equity instrument is any contract that evidences a residual interest in the assets of the company

after deducting all of its liabilities. Equity instruments issued by the company are recorded at the proceeds

received, net of direct issue costs.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit and Loss Account,

except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or

substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the

balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different

from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and

laws that have been enacted or substantively enacted by the year end and that are expected to apply to the

reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they

will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the

lease.

3. **Employees and directors**

The average number of employees dur was NIL (2017 - 1).
