#### 8. DESCRIPTION OF EVENT AFTER REPORTING DATE

The ongoing COVID-19 pandemic, resulting in workforce and travel restrictions, supply chain and

production disruptions and reduced demand and spending across many sectors, paired with

collapse of oil prices have significantly impacted global economies. During the latter part of the

last quarter of 2020, these factors began having a material adverse impact on our investees indicating that some of our investments in related entities carried at cost may have been impaired

eventually requiring us to estimate their recoverable amount at the next reporting date. While the

effects of these events cannot be estimated at our report release date, we anticipate many of

these impacts affecting our investments' recoverable amount will continue in the foreseeable

future depending on the severity and duration of the pandemic. Such effects and the required mitigating actions will continue to be monitored and evaluated by management during the next

financial year.
