- For the year ending 30 June 2015 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies.
- The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006.
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.
- These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

Approved by the Board on 10 March 2016

And signed on their behalf by:

P J House, Director

C W Adams, Director

Notes to the Abbreviated Accounts for the period ended 30 June 2015**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover is the value of goods provided to customers during the period, plus the value of work performed during the period with respect to services.

Tangible assets depreciation policy

Tangible assets other than freehold land and investment properties are depreciated by annual instalments over their estimated useful lives:

Plant & machinery - 25% reducing balance

Motor vehicles - 25% reducing balance

Equipment - 15% reducing balance

Other accounting policies

Leased Assets and Hire Purchase

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profit as incurred.

Assets held under finance leases and hire purchase contracts are capitalised and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability. The interest element of rental obligations is charged to profit & loss account over the period of the lease at a constant proportion of the outstanding balance of capital repayments.

Deferred Taxation

Deferred tax arises as a result of including items of income and expenditure in tax computations in periods different from those in which they are included in the company's accounts. Deferred tax is provided in full on timing differences which result in an obligation to pay more (or less) tax at a future date, at the average tax rates that are expected to apply when the timing differences reverse, based on current tax rates and law.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset.

Deferred tax assets and liabilities are not discounted.
