NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2022

1. General information

Elite Environments Limited is a private company limited by shares and incorporated in England and Wales. The address of the registered office is given in the company information page of these financial statements.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The following principal accounting policies have been applied:

2.2 Exemption from preparing consolidated financial statements

The company, and the group and its heads, qualify as small as set out in section 383 of the Companies Act 2006 and the parent and group are considered eligible for the exemption to prepare consolidated accounts.

2.3 Revenue

The turnover shown in the statement of income and retained earnings represents amounts received from the sale of goods and provision of management services provided during the year in the normal course of business, net of trade discounts, VAT and other sales and related taxes.

2.4 Financial instruments

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

2.5 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Motor vehicles	-	25%	on cost
Fixtures and fittings	-	25%	on cost
Equipment	-	33%	on cost

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.
