Assets held under finance leases and hire purchase contracts, which are those where

substantially all the risks and rewards of ownership of the asset have passed to the company, are

capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease

or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the

period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.
