M P Building Limited

Notes to the Financial Statements for the Period from 31 December 2017 to 27 December 2018

1 General information

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office is:
Thrifty House
4 Bilton Road
Hitchin
Hertfordshire
SG4 0SB

These financial statements were authorised for issue by the Board on 15 October 2019.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

Where a long term contract exists, each job is reviewed at the period end with reference to the costs incurred in accordance with FRS102. The resultant amounts are recorded within debtors and sales as amounts recoverable on contracts, where amounts exceed the contract progression an amount would be recognised within creditors as payments on account.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

M P Building Limited

Notes to the Financial Statements for the Period from 31 December 2017 to 27 December 2018

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Plant and machinery	25% reducing balance
Motor vehicles	25% reducing balance
Office equipment	25% reducing balance

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits.

Trade debtors

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised at the transaction price. Amounts are reviewed for recoverability periodically and where amounts are not considered to be recoverable these are written off to the profit and loss account when necessary.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised at the transaction price.
