**Notes to the Financial Statements  
for the Year Ended 31 March 2019**

**1. STATUTORY INFORMATION**

Mandale Investments Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

**2. ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

**Turnover**

Turnover represents rents and service charges receivable, excluding value added tax. Turnover also includes sales of properties which are recognised on legal completion.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Investment property	- not provided
Fixtures and fittings	- 10% on cost

**Investment property**

Investment properties for which fair value can be measured reliably without undue cost or effort are measured at fair value at each reporting date with changes in fair value recognised in profit or loss.

Following a review by the Directors at the year end, a gain of £432,000 has been adjusted for in the financial statements to reflect the fair value at 31 March 2019. The Directors assessed the properties using their overall knowledge of each property and the property condition combined with the appropriate industry rental yield multiples.

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

**Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

All other interest is charged to the profit and loss as incurred.

**Debtors and creditors receivable/payable within one year**

Debtors and creditors with no stated interest rate and receivable or payable within one year are recorded at transaction price. Any losses arising from impairment are recognised in the profit and loss.

**Impairment**

Assets not measured at fair value are reviewed for any indication that the asset may be impaired at each balance sheet date. If such indication exists, the recoverable amount of the asset is estimated and compared to the carrying amount. Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in profit or loss.

There are no formal terms of repayment for these balances.

The company is dependent upon the support of its group and associated companies with regard to the timing of the payment of these group and associated company creditors. Given the liquidity concerns within the property sector generally, and therefore within the associated and group companies, the timescale for payment of these balances is unknown. There are no formal terms of payment for these associated and group company balances.
