**Notes to the Abbreviated Accounts for the period ended 31 December 2013****1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

**Turnover policy**

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

**Tangible assets depreciation policy**

Property Improvements - straight line over life of lease

Plant & machinery - 20% straight line

Fixtures & fittings - 20-33% straight line

Motor vehicles - 33% straight line

Leasehold Property - straight line over life of lease

**Intangible assets amortisation policy**

Goodwill - straight line over 20 years

**Other accounting policies**

All fixed assets are initially recorded at cost.

Investment properties are shown in their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) which, unlike the Companies Act 2006, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease.

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

No material uncertainties that may cast significant doubt about the ability of

the company to continue as a going concern have been identified by the directors.

The immediate controlling party of the company is Unibind Systems (holdings) Limited, a company incorporated in England and Wales. The ultimate parent company is Unibind Digital Limited, a company also incorporated in England and Wales.

The investment property was valued at 31.12.2011 by the directors, and is stated at open market value for existing use. The directors were/are not qualified valuers of properties. The director still views this valuation as acceptable for the current year.

The company was shown to own 25% of the issued share capital of the Printed Word and Promotional Print Limited, a company incorporated in England and Wales, the in the year ended 31 December 2011. This however, was incorrect, as this 25% investment is held by Unibind Systems (Holdings) Limited, and always has been, hence the disposal in the current year's financial statements.
