PERLE SYSTEMS EUROPE LIMITED REGISTERED NUMBER: 02058845

BALANCE SHEET (CONTINUED) AS AT 31 DECEMBER 2024

The financial statements have been prepared in accordance with the special provisions applicable to companies subject to the small companies regime and in accordance with the provisions of FRS 102 Section 1A - small entities.

The financial statements have been delivered in accordance with the provisions applicable to companies subject to the small companies regime.

The Company has opted not to file the statement of comprehensive income in accordance with provisions applicable to companies subject to the small companies' regime.

The financial statements were approved and authorised for issue by the board and were signed on its behalf by:

D Barnett Director

Date: 10 March 2025

The notes on pages 3 to 11 form part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

1. General information

Perle Systems Europe Limited is a private company limited by shares incorporated in England & Wales under the Companies Act 2006. The address of the registered office is C/O Tmf Group 13th Floor, One Angel Court, London, United Kingdom, EC2R 7HJ.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland, except where departure is necessary to ensure the financial statements show a true and fair view, and the Companies Act 2006. Where relevant details of departures from FRS 102 are specified within the accounting policies which follow.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company accounting policies. The estimation of the deferred tax asset is the only matter of judgment that has a significant effect on the amounts recognised in the financial statements.

The following principal accounting policies have been applied:

2.2 Going concern

The financial statements have been prepared on the going concern basis as the parent entity has agreed to continue to provide financial and operational support for the foreseeable future, being not less than twelve months from the date of signing of the balance sheet. The parent entity provides the stock to this subsidiary and so going concern is contingent on this being provided. A letter has been provided by the parent entity confirming such continued support is in place.

The Directors have taken all necessary measures to satisfy themselves that the Company will continue to be able to operate throughout any predicted cost increases and beyond. The company is in a net current assets position and are not concerned about the preference shares, as these are held by the parent entity and appropriate disclaimers have been made by the parent. See preference share note for further details.

Therefore the Company is considered to be a going concern and no further adjustments have been made to the figures in these financial statements.

2.3 Consolidation

The Company and its subsidiary form a group. The company is exempt from producing consolidated accounts under s401 of the Companies Act 2006.

2. Accounting policies (continued)

2.4 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

2.5 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Sale of goods

Revenue from the sale of goods is recognised when all of the following conditions are satisfied:

- the Company has transferred the significant risks and rewards of ownership to the buyer;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the Company will receive the consideration due under the transaction; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.6 Operating leases: the Company as lessee

Rentals paid under operating leases are charged to profit or loss on a straight-line basis over the lease term.

2.7 Dividends on preference shares

The parent entity is the holder of the preference shares that carry a cumulative dividend. The parent entity has given written representations waiving their right to these cumulative dividends and corresponding liability. As such, these dividends and corresponding liability do not exist and are not recorded in these financial statements.

2. Accounting policies (continued)

2.8 Current and deferred taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacleage the balance sheet date in the countries where the Company operates and generates income.

Deferred tax balances are recognised in respect of all timing differences that have originated but not reversed by the balance sheet date, except that:

- The recognition of deferred tax assets is limited to the extent that it is probable that they will be recovered against the reversal of
 deferred tax liabilities or other future taxable profits; and
- Any deferred tax balances are reversed if and when all conditions for retaining associated tax allowances have been met.

Deferred tax balances are not recognised in respect of permanent differences except in respect of business combinations, when deferred tax is recognised on the differences between the fair values of assets acquired and the future tax deductions available for them and the differences between the fair values of liabilities acquired and the amount that will be assessed for tax. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2.9 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straightline method.

Depreciation is provided on the following basis:

Computer equipment - 3 years

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

2.10 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

PERLE SYSTEMS EUROPE LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2024

2.11 Debtors

Short term debtors are measured at transaction price, less any impairment.

2.12 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours.

2.13 Creditors

Short-term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgments, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. The nature of estimation means the actual outcomes could differ from those estimates.

The deferred tax asset recognised is a material accounting estimate, calculated as the projected utilisation of brought forward tax losses against probable future profits of the following three years. Management deem three years to be a suitable timeframe to reliably estimate future profits.

Bad Debt provision is recognised as a signifigant accounting estimate. The recoverability of the trade debtors has been assessed at year end and up until the date of signing the financial statements.

4. Employees

The average monthly number of employees, including directors, during the year was 6 (2023 - 6).
