#### 1. **STATUTORY INFORMATION**

PSP Investments Limited is a private company, limited by shares , registered in England and Wales. The

company's registered number and registered office address can be found on the Company Information page.

### 2. **ACCOUNTING POLICIES**

#### Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

## **Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings - 20% on cost Motor vehicles - 20% on cost

Freehold land & buildings contains property held for investment purposes. The directors consider that there

would be undue cost and effort to use the fair value model and therefore as per FRS 102 Section 16.8, the

property is held in tangible fixed assets until a reliable measure of fair value becomes available.

#### **Investment property**

Investment property is shown at most recent valuation. Any aggregate surplus or deficit arising from changes

in fair value is recognised in profit or loss.

## **Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to

the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or

substantively enacted by the balance sheet date.

## **Deferred tax**

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the

balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different

from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and

laws that have been enacted or substantively enacted by the year end and that are expected to apply to the

reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that

they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

#### **Fixed asset investments**

Fixed asset investments are shown at cost less provision for impairment.
