**Strategic Report
For the year ended 31 December 2014**

The directors present their Strategic Report for the year ended 31 December 2014.

Review of the business

The principal activities of the company during the year were the importation and distribution of cardiovascular and strength fitness equipment together with the provision of maintenance and service support on products sold by the company.

The company's key financial and other performance indicators during the year were as follows:

| | 2014 £'000 | 2013 £'000 | Change |
|--|---------------|---------------|--------|
| Turnover | 31,061 | 32,697 | -5% |
| Profit before tax | 72 | 1,894 | -96% |
| Profit after tax | 58 | 1,412 | -96% |
| Current assets as % of current liabilities | 176% | 200% | -12% |
| Average number of employees | 109 | 104 | +5% |

Turnover decreased by 5% during the year primarily due to decreased sales within the UK, down 5% from £31,494k in 2013 to £29,887k in 2014. In 2014 sales to major multi-site customers, in the Private and Public sectors, decreased from the levels seen in 2013.

Profit before tax decreased in 2014 from 2013 resulting from a competitive trading environment and higher cost of importation of products. The percentage of current assets compared to current liabilities decreased by 12% during the year.

Principal risks and uncertainties

- Competitive Risks

In the UK the company enters into contracts with customers which are subject to periodic competitive tender. Renewal of these contracts is not guaranteed and is based on financial and performance criteria.

- Legislative Risks

In the UK and Europe, fitness equipment must be manufactured to EU standards. These standards are subject to continuous revision and any new Directive may have a material impact on the ability of the company to manufacture and supply products at a profit.

- Financial Instrument Risks

The company has established a risk management framework whose primary objectives are to protect the company from events that hinder the achievement of the company's performance objective. The objectives aim to limit undue currency exposure, ensure sufficient working capital exists and monitor the management of risk at a business unit level. The majority of the company's purchases are made in US Dollars and as the results are consolidated back to US Dollars, hedging contracts are entered into to mitigate the risk of foreign exchange fluctuations.

The company aims to mitigate liquidity risk by managing cash generation of its operations.

Credit risk management is aimed at minimising financial loss to the company. This is managed by providing credit terms to customers who can demonstrate an appropriate payment history and satisfy credit worthiness procedures.

Directors' Report (continued)
For the year ended 31 December 2014

The directors present their report for the year ended 31 December 2014.

Directors

The directors who served throughout the year and to the date of this report :

J Worthy
A Prasad
M T Vaughn
F H L van de Ven

Dividends

The profit for the year, after taxation, amounted to £58,142 (2013 - £1,411,763). No dividend was paid in the year (2013 – nil)

Future developments

The directors aim to maintain the management policies and are of the view that 2015 will see a material increase in sales and profits as a result of an increase in business from commercial customers operating in the Private and Public sectors.

Going Concern

The company has considerable financial resources together with contracts with a number of customers and suppliers. The directors have a reasonable expectation that the company is well placed to manage its business risks successfully and considers that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements. They are comfortable that all outstanding future debts can be met by drawing upon the Group Treasury debtor which is payable to Life Fitness (UK) Ltd upon demand.

Directors' qualifying third party indemnity provisions

The company has taken out insurance to indemnify, against third party proceedings, the directors of the company. This indemnity policy subsisted throughout the year and remains in place at the date of this report.

Disclosure of information to auditor

In accordance with Section 418(2) of the Companies Act 2006, in the case of each of the persons who are directors at the time of when the report is approved, the following applies:

- so far as the directors are aware, there is no relevant audit information of which the company's auditor is unaware; and
- they have taken all the steps that they ought to have taken as directors in order to make themselves aware of any audit information and to establish that the company's auditor is aware of that information.

Financial risk management objectives and policies

The Company's activities expose it to a number of financial risks including credit risk, cash flow risk and liquidity risk. The use of financial derivatives is governed by the Company's policies approved by the board of directors, which provide written principles on the use of financial derivatives to manage these risks. The Company does not use derivative financial instruments for speculative purposes.

Directors' Report (continued)
For the year ended 31 December 2014

Cash flow risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company uses foreign exchange forward contracts to hedge these exposures.

Credit risk

The Company's principal financial assets are bank balances and cash, trade and other receivables. The Company's credit risk is primarily attributable to its trade receivables. The amounts presented in the balance sheet are net of allowances for doubtful receivables. An allowance for impairment is made where there is an identified loss event which, based on previous experience, is evidence of a reduction in the recoverability of the cash flows.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-rating agencies.

The Company has no significant concentration of credit risk, with exposure spread over a large number of counterparties and customers.

This report was approved by the board on *2 June 2015* and signed on its behalf.

**Statement of Directors' Responsibilities
For the year ended 31 December 2014**

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that year. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent Auditor's Report

We have audited the financial statements of Life Fitness (UK) Limited for the year ended 31 December 2014 which comprise the Profit and Loss Account, the Balance Sheet and the related notes 1 to 24. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the annual report to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us in the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2014 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

The notes on pages 10 to 21 form part of these financial statements.

Notes to the financial statements
For the year ended 31 December 2014

1. Accounting policies

1.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention and in accordance with applicable UK accounting standards.

1.2 Going Concern

The company has considerable financial resources together with contracts with a number of customers and suppliers. The directors have a reasonable expectation that the company is well placed to manage its business risks successfully and considers that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements. They are comfortable that all outstanding future debts can be met by drawing upon the Group Treasury debtor which is payable to Life Fitness (UK) Ltd upon demand.

1.3 Cash flow

The company, being a subsidiary undertaking where 90% or more of the voting rights are controlled within the group whose consolidated financial statements are publicly available, is exempt from the requirement to draw up a cash flow statement in accordance with FRS1.

1.4 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied, exclusive of Value Added Tax and trade discounts. Rental income is recognised rateably over the rental period. Amounts received in advance of the rental period are included within deferred income. Maintenance and service income is recognised rateably over the period of the contract.

1.5 Intangible fixed assets and amortisation

Goodwill is the difference between amounts paid on the acquisition of a business and the fair value of the identifiable assets and liabilities. Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying amount may not be recoverable.

1.6 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, on a straight line basis over their expected useful lives on the following bases:

| | | |
|---------------------|-----|-----------|
| Fixtures & fittings | 33% | Per annum |
| Motor vehicles | 33% | Per annum |
| Computer equipment | 33% | Per annum |

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable.

Notes to the financial statements
For the year ended 31 December 2014

1. Accounting policies (continued)

1.7 Operating leases

Rentals under operating leases are charged on a straight line basis over the lease term. Benefits received and receivable as an incentive to sign an operating lease are recognised on a straight line basis over the period until the date the rent is expected to be adjusted to the prevailing market rate.

1.8 Stocks

Stocks are stated at the lower of cost or net realisable value after making due allowance for obsolete and slow-moving stocks.

1.9 Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exception. Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

1.10 Foreign currencies

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date or if appropriate at the forward contract rate.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.

Exchange gains and losses are recognised in the profit and loss account.

1.11 Pensions

The company operates a defined contribution pension scheme. Contributions are charged in the profit and loss account as they become payable in accordance with the rules of the scheme.

1.12 Warranty

Estimated costs of the standard warranty, included within the sales price of the products, at no additional cost to the customer for a period of up to three years, are recorded as a provision for warranty costs at the time of the product sale.

Extended warranty revenue relates to deferred revenue arising from revenue attributable to extended warranty, within the sales price of the product, and is recognised on a straight line basis over the life of the Service provided. Costs related to servicing the extended warranty plan are expensed as incurred.

| At 31 December 2014 | <u>1,215,880</u> | <u>-</u> | <u>1,215,880</u> |

The provision for warranty relates to expected warranty claims on products in accordance with customer agreements. It is expected that the significant majority of this expenditure will be incurred within two years of the balance sheet date.

The provision for CPO relates to products sold to third parties where the company has agreed to buy back the stock at an agreed price in the future in the event that the customer purchases new products to replace the items being bought back. The buy back price agreed decreases the longer the customer holds the original asset. The provision recognised represents the loss that the company expects to incur on the estimated number of products which will be bought back. The expected loss is calculated based upon the expected realisable value of the repurchased product.

The provisions are undiscounted as the effect of discounting is immaterial.

19. Pension commitments

The company pays fixed contributions into a defined contribution scheme. The pension cost charge represents the contributions payable by the company and amounted to £268,362 (2013 - £233,859). There are no outstanding contributions payable at the balance sheet date (2013 - £nil).

20. Operating lease commitments

At 31 December 2014 the company had annual commitments under non-cancellable operating leases as follows:

| | <i>Land and buildings</i> | | | <i>Other</i> |
|----------------------------|---------------------------|----------------|----------------|----------------|
| | 2014 | 2013 | 2014 | 2013 |

**Notes to the financial statements
For the year ended 31 December 2014**

21. Derivatives

The company purchases forward foreign currency and options contracts to hedge currency exposure on firm future commitments. The value of purchases to which the company was committed at the balance sheet date amounted to £7,097,455 (2013 - £5,493,971). The fair value of the derivatives held at the balance sheet date, determined by reference to their market values are as follows:

| | 2014 £ | 2013 £ |
|------------------------------------|------------------|----------------|
| Forward foreign currency contracts | <u>(182,727)</u> | <u>208,803</u> |
| Options currency contracts | <u>-</u> | <u>36,689</u> |

22. Contingent liability

At the year end date there exist obligations in respect of leasing arrangements whereby equipment is sold to leasing companies which then lease the equipment to the end customer. The company is obliged, in some cases, to repurchase the equipment under lease upon default by the customer. The repurchase price is based on a percentage of the price at which the equipment was sold to the leasing company and is dependent upon the stage of expiry of the lease term. The contingent liability under such agreements at the year end date amounts to £nil (2013 - £3,719).

In respect of the obligations identified above, the directors believe that the realisable value of the equipment at the date of any repurchase will be greater than the repurchase price and therefore no provision is deemed necessary. The directors also believe that the probability of defaults arising that would result in the realisation of the obligation identified above is considered remote and accordingly the original sales value has been recognised in full in the year of sale.

23. Ultimate parent undertaking and controlling party

The directors regard Brunswick Corporation, a company incorporated in the United States of America, to be its ultimate parent company and the ultimate controlling party.

Brunswick International Limited is the parent company of the smallest group of which the company is a member. Brunswick Corporation is the parent company of the largest group of which the company is a member for which group financial statements are prepared. Copies of the consolidated financial statements are available from 1 North Field Court, Lake Forest, Illinois, 60045-4811, USA.

As a wholly owned subsidiary undertaking, the company has taken advantage of the exemption in FRS8 "Related party disclosures" from disclosing transactions with other members of the group wholly owned by Brunswick Corporation.

24. Related party transactions

During the year there were no related party transactions (2013 – £nil).
